99.01% adherence to
SLA for timely response

.....

Personalized
customer service

Enhance precision and efficiency in tax servicing
with our technology-enabled **Property Tax Services
Platform - RETS.**[™]

An innovative property tax servicing solution that combines the latest in technology, decades of industry experience and personalized customer contact services to help lenders:

Avoid penalties on loan portfolios with accurate tax data

Eliminate risk of property loss with rigorous tax tracking and reporting with frequent revalidation

Personalized customer service with multi-channel access to tax experts & ticket tracking system to answer queries

RETS is being used by several top U.S. lenders, including two of the top 5 U.S. commercial servicers. It can integrate with almost any servicing platform. RETS is currently integrated with seven loan servicing systems via a file share or API with no additional cost to the customer.

By combining technology and domain experience, RETS offers several features such as:

- Pricing based on portfolio characteristics

- Centralized platform for online tracking of customer service

- Identifying, tracking, reporting & risk analysis

- Single instance platform with real-time chat

- Cloud-based system built on Service Oriented Architecture

Business Value
